

SAFETY DATA SHEET

1. Identification

Product identifier	HydroForce® Industrial Strength D	egreaser	
Other means of identification			
Product code	14415		
Recommended use	General purpose degreaser		
Recommended restrictions	None known.		
Manufacturer/Importer/Supplie	r/Distributor information		
Manufactured or sold by:			
Company name	CRC Industries, Inc.		
Address	885 Louis Dr.		
	Warminster, PA 18974 US		
Telephone			
General Information	215-674-4300		
Technical	800-521-3168		
Assistance			
Customer Service	800-272-4620		
24-Hour Emergency	800-424-9300 (US)		
(CHEMTREC)	703-527-3887 (International)		
Website	www.crcindustries.com		
2. Hazard(s) identificatio	n		
Physical hazards	Corrosive to metals	Category 1	
Health hazards	Acute toxicity, inhalation	Category 4	
	Skin corrosion/irritation	Category 1	

	Skin corrosion/irritation	Category 1
	Serious eye damage/eye irritation	Category 1
Environmental hazards	Hazardous to the aquatic environment, acute hazard	Category 2
	Hazardous to the aquatic environment, long-term hazard	Category 3
OSHA defined hazards	Not classified.	
Label elements		
Signal word	Danger	
Hazard statement	May be corrosive to metals. Causes severe sk to aquatic life. Harmful to aquatic life with long	kin burns and eye damage. Harmful if inhaled. Toxic lasting effects.
Precautionary statement		
Prevention	and windows or use other means to ensure a drying. If you experience any symptoms listed	e vapor. Use with adequate ventilation. Open doors fresh air supply during use and while product is on this label, increase ventilation or leave the area. ive gloves/protective clothing/eye protection/face
Response	contaminated clothing. Rinse skin with water/s keep comfortable for breathing. If in eyes: Rins	o do. Continue rinsing. Wash contaminated clothing
Storage	Store locked up.	
Disposal	Dispose of contents/container in accordance v	vith local/regional/national regulations.

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
Water		7732-18-5	70 - 80
Tripropyleneglycol methyl ether		25498-49-1	3 - 5
Alcohols, C12-15, Ethoxylated		68131-39-5	1 - 3
Dioctyl sodium sulfosuccinate		577-11-7	1 - 3
Dipropylene glycol monomethyl ether		34590-94-8	1 - 3
Potassium hydroxide		1310-58-3	1 - 3
Propylene glycol		57-55-6	1 - 3
Sodium metasilicate		6834-92-0	1 - 3
Tetrasodium ethylenediaminetetraacetate		64-02-8	1 - 3
Vanilla fragrances		Proprietary	< 1
d-Limonene		5989-27-5	< 0.2
Terpinolene		586-62-9	< 0.2

Specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures	
Inhalation	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Oxygen or artificial respiration if needed. Call a POISON CENTER or doctor/physician if you feel unwell.
Skin contact	Take off immediately all contaminated clothing. Rinse skin with water/shower. Call a physician or poison control center immediately. Chemical burns must be treated by a physician. Wash contaminated clothing before reuse.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a physician or poison control center immediately.
Ingestion	Call a physician or poison control center immediately. Rinse mouth. Do not induce vomiting. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs.
Most important symptoms/effects, acute and delayed	Burning pain and severe corrosive skin damage. Causes serious eye damage. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Chemical burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Keep victim warm. Keep victim under observation. Symptoms may be delayed.
General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.
5. Fire-fighting measures	
Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.
Fire-fighting equipment/instructions	Move containers from fire area if you can do so without risk.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Wear appropriate protective equipment and clothing during clean-up. Do not breathe vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	This material is classified as a water pollutant under the Clean Water Act and should be prevented from contaminating soil or from entering sewage and drainage systems which lead to waterways. Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.
Environmental precautions	Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS. Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground. Inform appropriate managerial or supervisory personnel of all environmental releases.
7. Handling and storage	

Precautions for safe handling	Do not breathe vapor. Do not get in eyes, on skin, or on clothing. Use only outdoors or in a well-ventilated area. Wear appropriate personal protective equipment. Avoid release to the environment. Observe good industrial hygiene practices. Use care in handling/storage. For product usage instructions, please see the product label.
Conditions for safe storage, including any incompatibilities	Store in a cool, dry place out of direct sunlight. Keep only in the original container. Store in a well-ventilated place. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Exposure guidelines US - California OELs: Skin designation Dipropylene glycol monomethyl ether (CAS 34590-94-8) Can be absorbed through the skin. US - Tennessee OELs: Skin designation Dipropylene glycol monomethyl ether (CAS 34590-94-8) Can be absorbed through the skin. **US ACGIH Threshold Limit Values: Skin designation** Dipropylene glycol monomethyl ether (CAS 34590-94-8) Can be absorbed through the skin. US NIOSH Pocket Guide to Chemical Hazards: Skin designation Dipropylene glycol monomethyl ether (CAS 34590-94-8) Can be absorbed through the skin. US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000) Dipropylene glycol monomethyl ether (CAS 34590-94-8) Can be absorbed through the skin. Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates Appropriate engineering should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, controls or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eye wash facilities and emergency shower must be available when handling this product. Individual protection measures, such as personal protective equipment Eye/face protection Wear safety glasses with side shields (or goggles). Skin protection Hand protection Wear protective gloves such as: Nitrile. Rubber. Other Wear appropriate chemical resistant clothing. **Respiratory protection** If engineering controls are not feasible or if exposure exceeds the applicable exposure limits, use a NIOSH-approved cartridge respirator with an organic vapor cartridge. Use a self-contained breathing apparatus in confined spaces and for emergencies. Air monitoring is needed to determine actual employee exposure levels. Wear appropriate thermal protective clothing, when necessary. Thermal hazards Always observe good personal hygiene measures, such as washing after handling the material **General hygiene** considerations and before eating, drinking, and/or smoking. Routinely wash work clothing and protective

Solubility (water)	Soluble.
Partition coefficient (n-octanol/water)	Not available.

equipment to remove contaminants.

9. Physical and chemical properties

Auto-ignition temperature	404.6 °F (207 °C) estimated
Decomposition temperature	Not available.
Viscosity (kinematic)	Not available.
Percent volatile	81.1 % estimated

10. Stability and reactivity

Reactivity	Reacts violently with strong acids. This product may react with oxidizing agents. May be corrosive to metals.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Do not mix with other chemicals. Contact with incompatible materials.
Incompatible materials	Acids. Strong oxidizing agents. Oxidizing agents. Metals.
Hazardous decomposition products	Carbon oxides.

11. Toxicological information

Information on likely routes of e	exposure
Ingestion	Causes digestive tract burns.
Inhalation	Harmful if inhaled.
Skin contact	Causes severe skin burns.
Eye contact	Causes serious eye damage.
Symptoms related to the physical, chemical and toxicological characteristics	Burning pain and severe corrosive skin damage. Causes serious eye damage. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.

Information on toxicological effects

Acute toxicity	Harmful if inhaled.	
Product	Species	Test Results
HydroForce® Industrial Strength D)egreaser	
Acute		
Dermal		
LD50	Rabbit	2113.2 mg/kg calculated
Inhalation		
LC50	Rat	17.7 mg/l, 4 hours calculated
Oral		
LD50	Rat	4602.4 mg/kg calculated
* Estimates for product may b	e based on additional compon	ent data not shown.
Skin corrosion/irritation	Causes severe skin burns and eye damage.	
Serious eye damage/eye irritation	Causes serious eye damage.	
Respiratory sensitization	Not available.	
Skin sensitization	This product is not expected to cause skin sensitization.	
Respiratory or skin sensitizatior	ı	
Sensitization Vanilla fragrances		0, Skin
Germ cell mutagenicity	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.	
Carcinogenicity	Based on available data, the classification criteria are not met.	
IARC Monographs. Overall I	Evaluation of Carcinogenicit	у
d-Limonene (CAS 5989-2	27-5)	3 Not classifiable as to carcinogenicity to humans.
Reproductive toxicity	This product is not expected	to cause reproductive or developmental effects.
Specific target organ toxicity - single exposure	Not classified.	

Specific target organ toxicity - repeated exposure	Not classified.
Aspiration hazard	Based on available data, the classification criteria are not met.
Chronic effects	Prolonged exposure may cause chronic effects.

12. Ecological information

		equatic life. Harmful to aquatic life with long last	ing checto.

Other adverse effects			e (e.g. ozone depletion, photochemical ozone creation varming potential) are expected from this component.

13. Disposal considerations

Disposal of waste from residues / unused products	If discarded, this product is considered a RCRA corrosive waste, D002. Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose in accordance with all applicable regulations.
Hazardous waste code	D002: Waste Corrosive material [pH <=2 or =>12.5, or corrosive to steel]
Contaminated packaging	Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied.
